Our Philosophy

We believe that each child is a precious gift from God molded into the unique individual that he/she is. We foster an environment for children to develop life-long skills through learning about the Word of God and providing developmentally appropriate activities in each classroom. Children are actively involved in their learning process through structured play, interaction with others, various teaching approaches and the opportunity to make individual choices. Together with families we provide a strong foundation for your preschooler's future through faith and education.

I love how my kids are receiving a Christian education so early on in their schooling!

- Tammy J.

Come... discover, imagine, and explore with us!

Our Curriculum

We are committed to providing children with an educational, Christian-based program. The staff is dedicated to teaching children school-readiness and life skills through the daily schedule and activities we offer. The curriculum is based on educational and developmental theories and current research supporting the development of young children. We base our programs on the belief that children learn through interaction with others, modeled teaching approaches, and the opportunity to make individual choices.

Allowing children the opportunity to investigate, experiment, and explore concepts while interacting with others and participating in teacher-directed activities provides them with a sense of individuality, spirituality, and friendship while building on the development of the whole child. Children are provided a balanced amount of time to engage in structured and unstructured activities.

Throughout the daily schedule they are able to participate in child and teacher-directed activities with daily lesson plans and the setup of the classroom environment.

The Word of God is integrated in all content areas (math, science, social studies, early writing, early literacy, and language), and developmental domains (adaptive, social, emotional, physical, and cognitive) to provide all children an equal opportunity for growth.

"Extended-care is more than just child care. There is so much learning and growth that happens when my son is at Holy Cross."

- Matt C.

"Our four children have attended Holy Cross Preschool. When they got to kindergarten, their teachers were always amazed at how prepared they were—both academically and socially for school."

- Megan S.
